Q: When will the amendment for option years one thru four multipliers be sent out? Section B.4 of the solicitation (sol.) has one line item. Prices change over a five year period. If you only want one multiplier can this line item be applied to the Means book for the year it corresponds to, to be fair to the contractors? There is a discrepancy in section B.4 between paragraph one and the description in clin 0001. There is mention of "prospective offerors quoting their multiplier(s)". In this same paragraph there is also mention of the base year and all option years being based on the Means data in effect on the date of the RFP. In the clin description, second sentence, "services for the base year and the four option years may, at the contracting officer's discretion, be performed at unit price rates obtained by multiplying the offerors quoted multiplier with line items depicted in Means for **applicable years.**"

A: There will be no amendment to the current requirement as it pertains to option years one (1) thru four (4) multipliers. In the first sentence in Section B.4, delete "multipliers" and substitute "multiplier".
